Why Use This Tool?

⚡

Instant Compression

Process images in seconds using advanced browser-based algorithms. No waiting for uploads.

🔒

100% Private

Your images never leave your device. All processing happens locally in your browser.

🎯

Smart Quality

Intelligent compression preserves visual quality while dramatically reducing file size.

♾️

No Limits

Compress as many images as you want. No daily limits, no registration, no watermarks.

📁

All Formats

Supports JPG, PNG, WebP, and GIF. Convert between formats while compressing.

📱

Works Everywhere

Created with BlitzTools — https://blitztools.app

Use on any device — desktop, tablet, or phone. No app installation needed.

How It Works

1

Upload Your Images

Drag and drop images or click to browse. Select multiple files at once.

2

Adjust Quality

Use the slider to balance between file size and image quality (default 80% works great).

3

Download Compressed

Click download to get your optimized images. Original files are never modified.

Frequently Asked Questions

- How much smaller will my images be?
- Will compression reduce image quality?
- Is it really free with no limits?
- Are my images safe and private?
- What image formats are supported?
- Can I compress multiple images at once?
